DETAILED ACTION

Drawings

1. New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because identifier lines and diagram lines need to be straight and identifiers numerals need to be clear. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance: Claims 1, 11 and their respective dependent claims are allowable because the recitation of a blanket having a hood compartment located at the top center of the blanket, a pair of pockets disposed at angle and being at least 18 inches from the blankets top edge and a storage pouch with a strap and handle disposed on the blanket.

The references cited show many convertible blankets including hood compartments, storage pouches and pockets. However, no reference teaches a convertible blanket having inner angled pockets, a hood compartment and a storage pouch with strap and handle in the proper location on a single blanket article.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
